✓ Apostille

- The Convention provides for the use of simplified certification or public documents (including notarized documents) among countries that have joined the convention. The Apostille ensures that public documents issued in one signatory country will be recognized as valid in another signatory country.

✓ Procedure for the issuance of apostille

- Official Document (Issued by National, Public Institution)

- Private Document (Issued by Private Institution)

※ In case of a private document, there may be some difference according to the national notary and attorney's law, but usually the apostille can be checked by submitting it after receiving a notary notice from the country.
